

2019 Biostatistics Career Outcomes Report

The 2019 Biostatistics Career Outcomes Report includes data from students in the graduating classes of August 2018, December 2018, and May 2019 in the Biostatistics Department. Data was collected through the First Destination Survey via the Handshake Career Management Platform. All data is self-reported.

The SPHTM First Destination Survey was delivered to students with primary degrees in the Tulane University School of Public Health and Tropical Medicine. Surveys were sent beginning one month prior to each graduation term. Data was collected for one-year post-graduation. Aggregate data below represents members of the August 2018, December 2018, and May 2019 graduating classes, and all data is self-reported.

Data was not collected for students enrolled in the following Tulane joint degrees programs (MD/MPH, MD/MPH&TM, MD/MSPH, MD/PhD, MBA/MHA, JD/MHA).

2019 Biostatistics Class Profile

Education Level

Of the 12 Biostatistics students in the survey, 11 (92%) graduated with Master Degrees and 1 (8%) graduated with a Doctoral Degree.

Breakdown by Degree

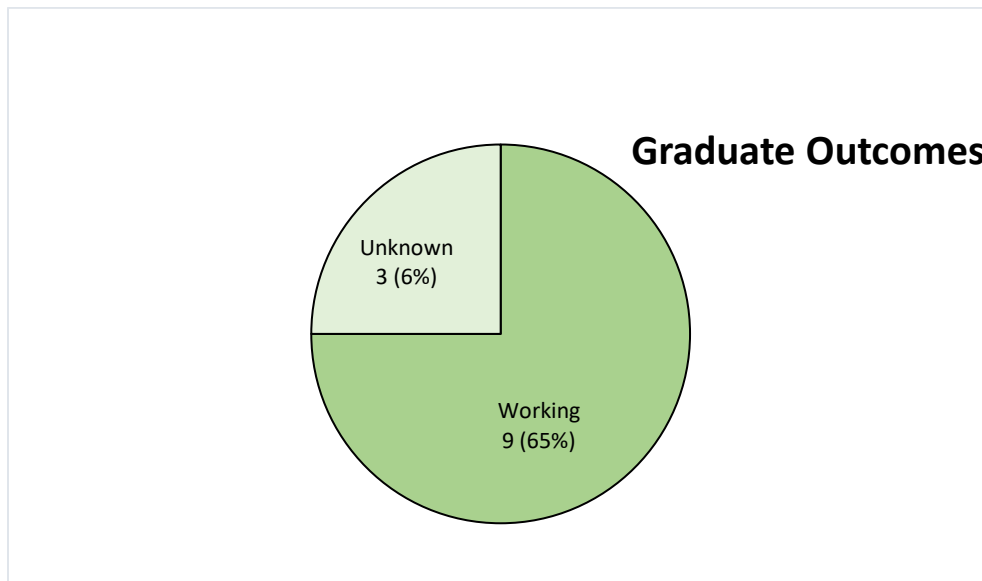

In the 2019 cycle, 7 students received a Master of Science in Public Health in Biostatistics, 4 students received a Master of Science in Biostatistics, and 1 received a Doctor of Philosophy in Biostatistics.

Dept.	MSPH	MS	PhD	All Students	Survey Responses	Response Rate
BIOS	7	4	1	12	9	75%
