

How to create a verified digital signature in Adobe Pro DC

1. Open the PDF file in Adobe Acrobat Pro.
2. Click on **Certificates** in the Tools pane.
3. Click **Digitally Sign**, and then click and drag the area where you would like the signature to appear.

4. If you are using digital signature for the first time, select **Configure New Digital ID** then **Create a new Digital ID**, then **Save to File**.

5. Enter your personal information and select Continue.
6. Select where you would like to save the file and create a Digital ID password.
7. Select your Digital ID and press Continue.
8. Enter your password and press Sign.
